PROFESSIONAL SUMMARY

Cross-industry delivery professional with 5+ years of execution experience across technology, consulting, infrastructure, and social enterprise — stepping in as project lead, programme manager, or operations coordinator depending on what the mission needs.

Consistent 95% on-time delivery record leading teams of up to 14 in remote and hybrid environments across the full delivery lifecycle: initiation, planning, execution, stakeholder management, and closure.

Proven across diverse domains with measurable outcomes — 20% data accuracy improvement, 25% incident reduction, and 10% faster project integration. Hands-on experience with LMS platform operations, programme dashboards, SOP design, and PMO-style governance. Async-first, globally flexible, and built to operate across domains, time zones, and team sizes.

CORE COMPETENCIES

Project & Programme Delivery: Full-Lifecycle Management · Scope Definition · Milestone Tracking · Risk Management · Change Control · Resource Allocation · Agile / Scrum · Sprint Planning · Hybrid Delivery

Operations & Process: Business Process Improvement · Workflow Automation · SOP Design · Incident Management · Team Leadership & Mentoring · Lean Six Sigma · Vendor Coordination · Capacity Building

Stakeholder & Client Management: Stakeholder Reporting · NGO & Partner Management · Client Relationship Management · Requirements Gathering · Escalation Resolution · Startup & Ecosystem Engagement

Learning, Reporting & Documentation: LMS Operations (nLearn / nDigital) · Programme Dashboards · Case Study Documentation · Workshop Facilitation · Trainer & Speaker Coordination · Impact Reporting

Tools & Platforms: MS Project · Trello · Kanban · SharePoint · Slack · Zoom · Google Workspace · Zendesk CRM · Microsoft 365 · AI-Augmented Workflows

PROFESSIONAL EXPERIENCE

Programme Manager · Contract

Aug 2024 – Nov 2024

Jagriti Enterprise Centre · Mumbai, India

Social entrepreneurship organisation — end-to-end programme delivery for alumni ecosystem data initiative, coordinating cross-functional remote teams against a fixed delivery schedule.

- Led end-to-end delivery of a community data and ecosystem mapping programme, improving participant data accuracy by **20%** and enabling stronger analytical reporting for NGO leadership and stakeholder partners.
- Directed a team of 5 across planning, milestone tracking, and dependency management, achieving **on-time delivery** of all contracted programme deliverables against a fixed schedule.
- Designed a structured stakeholder communication framework — weekly progress reports, **risk registers**, and escalation protocols — ensuring full transparency with senior leadership throughout the programme lifecycle.
- Coordinated distributed programme tracking via **MS Project** and **Trello**, maintaining real-time visibility across all workstreams for a remote, cross-functional team.

Digital Operations Coordinator · Contract

Dec 2021 – Feb 2022

Jagriti Yatra · Mumbai, India (Remote)

National innovator programme — remote digital operations and cohort delivery for 700+ participants spanning entrepreneurs, ecosystem builders, and social innovators across India.

- Designed and executed a fully remote cohort onboarding programme for **700+ participants**, achieving a **95% completion rate** through workflow automation, digital collaboration platforms, and standardised SOPs.
- Coordinated end-to-end programme operations — scheduling, **mentor and expert speaker logistics**, participant communications, and vendor management — improving satisfaction scores by **10%**.
- Implemented a postmortem and monitoring framework that reduced critical incident recurrence by **25%**, strengthening operational resilience across all delivery workstreams.
- Managed multi-stakeholder communications across NGO partners, programme leads, and participant cohorts, maintaining full alignment throughout a fully distributed delivery environment.

Team Lead — Operations

Jun 2020 – Dec 2021

Nspira Management Services Pvt. Ltd · Hyderabad, India*Education management consulting firm — operations leadership, performance standardisation, and digital learning platform management across a 500+ school network.*

- Led and developed a **team of 14**, achieving a **20%** improvement in overall performance through structured SLA adherence monitoring, targeted coaching, and feedback cycles.
- Maintained a **95%** on-time delivery rate across concurrent workstreams through hybrid Agile-Waterfall delivery, proactive risk forecasting, dependency tracking, and early escalation to senior stakeholders.
- Architected and deployed standardised operating procedures across key workflows, reducing project integration time by **10%** and improving cross-unit delivery consistency across the organisation.
- Managed day-to-day operations of in-house **LMS platforms (nLearn & nDigital)** — online class scheduling, student enrolment, digital exam management, and content upkeep across the school network, building end-to-end LMS administration expertise.
- Produced weekly and monthly performance dashboards presenting KPI summaries and variance analysis to senior management, supporting data-driven decision-making.
- Managed stakeholder escalations as primary resolution point, maintaining client satisfaction through structured conflict-resolution and communication frameworks.

Multi-Project Coordinator · Contract

Mar 2019 – Apr 2020

The Singareni Collieries Company Ltd · Kothagudem, India*State-owned industrial conglomerate — concurrent infrastructure project coordination across multi-site operations, vendor management, and senior management reporting.*

- Coordinated **5+ concurrent** infrastructure maintenance projects, managing inspection schedules, vendor timelines, and repair workflows — reducing equipment downtime by **10%**.
- Introduced a centralised project status tracker adopted across the site team, improving cross-department visibility and reducing reporting turnaround time significantly.
- Maintained audit-ready project documentation, progress dashboards, and tracking logs for accurate senior management reporting across all active projects.
- Liaised across engineering, procurement, and operations functions to align resource availability with project milestones and minimise schedule risk.

EARLIER EXPERIENCE**Associate, Client Advisory** · Wipro Limited

Sep 2016 – Nov 2016

Business needs assessments and technology solution advisory for global enterprise clients.

Associate, Technical Services · Motorola Home India

Sep 2015 – Aug 2016

Technical escalation resolution and SLA compliance, improving customer satisfaction scores.
